

La Corona "Stela 1" This is a sketch of information from one face and one side .										Correlation constant in this table is 584285.		
A field drawing by David Stuart has appeared in the Informe available on Mesoweb.										Modern dates are Gregorian.		
This stela is preserved in 3 fragments, heavily eroded, with provisional glyph block numbering pC-pH, p2-p13.												
There is an Initial Series on the right side fragment. Only one date seems to be shared with other La Corona monuments.												
(9	5	10	0	0)	10 ^r Ajaw ¹	8 Sip	Lahuntun. PAT-jiiy ??	(could be 5 or 10 Ajaw)	D5b-C6a/C7	544	13-May
